

COMMUNITY OUTREACH

The Welcome Home Group Recruitment Guide / Community Outreach

HELPING VETERANS AND MILITARY SPOUSES SUCCEED

The Welcome Home Group is 100% volunteer operated. We are looking for some great people who have some time to join our team. Our mission is and always has been the success of our veteran participants and it takes great people with great focus to achieve this mission.

COMMUNITY OUTREACH MAKES A DIFFERENCE

Working with veterans and military spouses to prepare for civilian employment is a very rewarding way to volunteer. The men and women of the military each have a very unique story to tell, and working closely with them to create that story in a way that will showcase them in a clear and effective way is an experience that will humble many.

As a community outreach specialist, you will be talking to people in the community about TWHG. Your duties will include:

- Promoting TWHG in the community
- Scheduling informational webinars
- Follow-up with those that have been contacted

The Welcome Home Group will provide you with all the necessary training to help prepare you to work within your community.

Our Virtual Career Readiness program is a 30-day “boot-camp” style program which focuses on the success of our veterans and military spouses in gaining the skills they need to join the civilian workforce
